Employment

MIM Software at GE Healthcare — May 2022 - Present

UI/UX Designer II

April 2024 - Present

- Designs major features for existing products including the MIM Java Contouring Sidebar, MIM Java Fusion Spyglass, Contour QA Workflow, and Elekta ONE Workflows.
- Hosts product strategy workshops with internal stakeholders in order to determine the design direction for new products in the Radiation Oncology market.
- Records and summarizes user testing data and customer support feedback to discuss with product managers, analyzing further to make product design improvements.
- Conducts virtual user tests to evaluate how physicians, dosimetrists, and technologists interact with MIM products.

UI/UX Designer I

May 2023 - April 2024

- Collaborated with international stakeholders, including those in Belgium and China, to design new workflows for MIM's Elekta ONE partnership, beta released in 2024.
- Redesigned MIM's cloud product to better serve modern needs, non-production released in 2025.
- Developed and maintained design systems with Figma Libraries for MIM Java, MIM Workflows, and MIM web apps.
- Standardized processes for creating, maintaining, and archiving Figma design files within the UI/UX team.

User Interface Design Intern

May 2022 - May 2023

- Designed user interfaces for new MIM web app features.
- Updated the design system for an internal CRM platform.

Hive Design Group — June 2021 - September 2022

Graphic Designer

June 2021 - September 2022

- Collaborated with local clients to assist with design needs.
